JOHNS HOPKINS UNIVERSITY SEEKING AN ELECTRICIAN JOB ORDER NUMBER 1572847

Johns Hopkins Facilities and Real Estate Electric Shop is seeking an *Electrician* who will install and maintain all types of electrical equipment and associated non-electronic controls. This role will diagnose and repairs malfunctions. Performs primarily maintenance and repair and some construction work. May perform switching on primary 15 kv electrical distribution system.

- Installs, wires, connects, and repairs electrical equipment and circuits such as power circuit breakers, bus bars, internal and external lighting fixtures, receptacles, intercommunication systems, remote control lighting, sound amplifying equipment, and motor systems, electric scoreboards, underwater safety control circuits, gas and oil burner controls, fire alarm systems, high tension transformers and switch equipment, generators, auxiliary generating equipment and control panels.
- Diagnoses all types of non-electronic electrical malfunctions. Tests, traces circuits, and checks operation of all equipment. Makes necessary adjustments, repairs and/or replacements to return the equipment or circuits to proper operating condition.
- Performs preventive maintenance, periodically inspecting equipment, and locating and correcting problems before breakdowns occur according to established maintenance schedule or as needed.
- Maintains records of tests, repairs, and inspections.
- May perform switching on 15 kv primary electrical distribution system.
- May perform standby duties for various university functions.
- Observes all safety precautions in performing work duties to avoid harming self and others, and damaging property.
- Maintains equipment and work area in clean and orderly condition.
- May be required to be available for 24 hour calls.
- Performs other duties as assigned.

Requirements: High school diploma or GED with three years of relevant experience. Thorough knowledge of the electrical trade at an apprentice level to include the following: ability to read blueprints, knowledge of electrical theory, electronics, math, electrical code requirements, electrical systems, associated non-electronic controls, and electrical testing tools. Ability to diagnose, trouble shoot, and repair electrical equipment malfunctions. Ability to read work orders and to complete records, maintenance schedules, etc. Ability to interact and/or work with faculty, students, staff and visitors in a respectful and courteous manner. Ability to follow oral or written instructions. Background check, drug screen. Hopkins mandates COVID-19 and flu vaccines. \$22.89/hour increases to \$27.49 after 12 months.

To apply: Email resume to: rworen@oedworks.com
