~Now Hiring: Service Technicians~

Apply today at: <https://www.mchenrypcs.com/about/careers>

Description:

- Service technician to provide service and support of washing equipment, wastewater systems, air compressors and other equipment
- Would work in shop and on the road
- Assist in performing maintenance and clean outs on wash water treatment systems
- Assist and perform installation of equipment and systems
- Assemble new equipment and test
- Perform various maintenance, service and clean up around the shop
- Learn how to mix/blend chemical and deliver as needed
- Flexibility is required, employee must be willing to multitask, and perform other duties as assigned

Requirements:

- Good, clean driving record.
- Due to the fact that a lot of our work requires security clearances, a background check is required
- Some lifting required; must be able to handle and roll/move 55-gallon drums of detergent.
- Punctuality - need to show up for work and on time.
- Be able to deal with customers and communicate with them in effective positive way
- Maintain a professional appearance at all times; display neatness and take pride in work.
- General mechanical ability - basic knowledge of electricity, controls, plumbing, burner systems and pumps would be helpful.
- Do not mind getting dirty as in the course of some work this will occur.
- Be able to read, understand and put into practice service lessons and instructions.
- Operate and conduct in a safe manner and maintain safe work practices at all times.
- Majority of training would be hands-on. Learning through doing and working with other service technicians. School training would be provided as available.
- **Travel is necessary.**
