

Curriculum Checklist Form

Complete the information below then read the delivery instructions at the bottom of this form.

YOUR NAME: Last First M.I.

EXAM TYPE: P.E. [] F.E. []

You must complete this form if you have:

- 1. A 4-year engineering degree from a college/university in the U.S. that is not EAC/ABET approved;
2. A 4-year engineering technology degree (either approved or unapproved by TAC/ABET) from a college/university in the U.S.;
3. A degree from a foreign institution; or;
4. Any other unapproved degree.

*FORM IS NOT REQUIRED IF APPLICATION IS BASED ON EXPERIENCE ALONE.

Table with 3 columns: A. Name of College(s)/University(ies), Degree, Graduation Date. Rows 1-4.

An engineering curriculum of 4 scholastic years or more should consist of at least:

- 1. 15 semester hours in mathematics which shall include differential calculus, integral calculus, and differential equations;
2. 15 semester-hours of instruction in basis sciences which shall include general chemistry and general physics with calculus;
3. 30 semester-hours of instruction in engineering subjects, which shall include a course, project, or thesis that focuses upon engineering design,
4. 15 semester-hours of instruction in advanced mathematics, basis science, or engineering.

The following sections are to be used to list courses in each of the four categories above.

SECTION B. 15 semester hours in **MATHEMATICS** which shall include differential calculus, integral calculus, and differential equations

COLLEGE NO. FROM SEC. A	COURSE NAME	COURSE NUMBER	COURSE CONTENT/ DESCRIPTION	CREDIT HOURS	
				SEMESTER	QTR
			TOTAL		

SECTION C. 15 semester hours in **BASIC SCIENCES** which shall include general chemistry and general physics with calculus

COLLEGE NO. FROM SEC. A	COURSE NAME	COURSE NUMBER	COURSE CONTENT/ DESCRIPTION	CREDIT HOURS	
				SEMESTER	QTR
			TOTAL		

SECTION D. 30 semester hours in ENGINEERING SUBJECTS which shall:

- (1) Include a course, project, or thesis that focuses upon engineering design (indicate with a *);
- (2) Incorporate hands on quantitative laboratory work correlated with the science and design instruction (indicate with **);
- (3) For graduation subsequent to 1975, include at least one high level computer language such as FORTRAN or PASCAL, C/C++, or MATLAB so that the student is able to compose computer programs to solve problems in science and design (indicate with ***);
- (4) demonstrate familiarity with probability, statistics, and linear algebra (indicate with ****).

Engineering courses shall be selected subject areas such as:

- | | |
|-----------------------------------------------|---------------------------------------------|
| Biochemistry, Biophysics & Biometrics | Civil & Structural Engineering |
| Computer Science | Digital Signals & Systems |
| Electrical, Electronic & Computer Engineering | Electrodynamics |
| engineering Design | Engineering Economics |
| Finite Element Analysis | Fluid Mechanics, Hydraulics, & Gas Dynamics |
| Geochemistry & Geophysics | Materials Science |
| Physical, Organic & Inorganic Chemistry | Sanitary & Environmental Engineering |

COLLEGE NO. FROM SEC. A	COURSE NAME	COURSE NUMBER	COURSE CONTENT/ DESCRIPTION	CREDIT HOURS	
				SEMESTER	QTR

SECTION E. 15 semester credit hours in advanced courses in mathematics, science or engineering

COLLEGE NO. FROM SEC. A	COURSE NAME	COURSE NUMBER	COURSE CONTENT/ DESCRIPTION	CREDIT HOURS	
				SEMESTER	QTR
			TOTAL		

INSTRUCTIONS: Send the completed form via one of the following options:

- 1) Email to dlaplproengineerexam-labor@maryland.gov; or
- 2) Fax to 410-962-8483; or
- 3) Mail to Board for Professional Engineers, 500 N. Calvert Street, Room 308, Baltimore, MD 21202

INSTRUCTIONS FOR COMPLETING CURRICULUM CHECKLIST FORM

You must complete this form if you are applying with a non-EAC/ABET approved 4 year engineering degree in the U.S.; 4 year engineering technology degree (approved or unapproved by TAC/ABET) in the U.S.; a foreign degree; or, any other unapproved degree. *FORM IS NOT REQUIRED IF APPLICATION IS BASED ON EXPERIENCE ALONE.

For each unapproved institution not located in the U.S. (with the exception of certain Washington Accord schools), you must provide an official course-by-course evaluation sent directly from the evaluation company to the Board's office. See www.ncees.org or www.naces.org for a list of evaluation companies. The Board will only accept evaluations from companies that obtain transcripts directly from the institution.

SECTION A - List the names of the colleges/universities you attended, and the degree(s) earned and date(s) awarded. In SECTIONS B, C and D in the first column boxes denote the college/university by the number assigned to it in Box A.

SECTION B - Enter the information about mathematics courses taken, totaling at least 15 semester credit hours. Relevant courses should include differential calculus, integral calculus and differential equations, and should be described as such in the course content column.

SECTION C - Enter information about basic sciences courses taken, totaling 15 semester credit hours. Relevant courses should include general chemistry and physics with calculus, and should be described as such in the course content column.

SECTION D

Enter information about engineering courses taken, totaling at least 30 semester credit hours. These courses should:

1. Include a course, project or thesis focusing on engineering design (indicate with *).
2. Incorporate hands-on quantitative laboratory work correlated with the science and design instruction (indicate with **).
3. For graduation subsequent to 1975, include at least one high level computer language such as FORTRAN or PASCAL so that the student is able to compose computer programs to solve problems in science and design (indicate with ***).
4. Demonstrate familiarity with probability, statistics and linear algebra (indicate with ****).

Engineering courses shall be in selected subject areas such as:

Biochemistry, Biophysics & Biomechanics	Civil & Structural Engineering
Computer Science	Digital Signals & Systems
Electrical, Electronic & Computer Engineering	Electrodynamics
Engineering Design	Engineering Economics
Finite Element Analysis	Fluid Mechanics, Hydraulics, & Gas Dynamics
Geochemistry & Geophysics	Materials Science
Physical, Organic & Inorganic Chemistry	Sanitary & Environmental Engineering
Transient Analysis & Feedback Control	Transfer & Transport Phenomena
Solid State Physics, Nuclear Physics, Quantum Optics	Statics and Dynamics
Strength of Materials	Thermodynamics

SECTION E - Provide the information requested about advanced courses in mathematics, science or engineering, totaling 15 semester hours.
