Legislative Update

Senate Bill 64/House Bill 200

Executive Director Schott advised the Commission that SB 64 received a favorable vote from the Senate Finance Committee. She advised that HB 200, which is the companion bill, was heard by the House Economic Matters Committee. HB 200, with amendments, received a favorable vote from the House Economic Matters Committee. She advised that the original Bill removed a provision that required one home inspector member to be a member of ASHI and one home inspector member to be a member of NAHI. She reported that the amendment did not alter the removal of the requirement that two home inspector members be members of professional home inspection organizations, but requires that each of the four members of the home inspector sector of the Commission be licensed as a home inspector for at least five years in order to be appointed to the Commission.

A motion was made by Commissioner Fair, seconded by Commissioner Dunkin and unanimously carried that the Commission go on record in support of the amendment to HB 200.

House Bill 64

Ms. Schott advised the Commission HB 64, which amends the law by decreasing from 60 to 30 the number of days after the completion of an appraisal report or valuation assignment during which an appraisal management company must pay the appraiser. HB 64 received a favorable vote from the House Economic Matters Committee.

Appraiser Qualifications Board

Ms. Schott advised that the Appraiser Qualifications Board (AQB) adopted revisions to The Real Property Appraiser Qualifications Criteria (Criteria) by decreasing the number of hours of work experience for certain license categories; decreasing the time frame during which an individual must train; and altering the college education requirements for certain licensing categories. The new AQB Criteria becomes effective on May 1, 2018.

She advised that the new Criteria for a Licensed real estate appraisers reduces the number of hours of training from 2,000 to 1,000; reduces the time frame to train, from one year to six months; and removes the requirements of an Associate degree or a 30-hour college level education requirement.

She advised that the new Criteria for a Certified Residential license reduces the number of hours of training from 2,500 to 1,500; reduces the time frame to train, from two years to one year; provides for an alternative to a Bachelor degree; and allows Licensed real estate appraisers to upgrade to Certified Residential without a degree if the appraiser has held the license, in good standing, for a minimum of five years.

She advised that the new Criteria for a Certified General license reduces the time during which an appraiser must complete 3,000 hours of work experience, from 30 months to 18 months.

Ms. Schott advised that the States are required to adopt the minimum requirements established by the AQB. Therefore, the Commission is not obligated to adopt any of the new requirements in that

its existing requirements exceed the current and newly adopted AQB Criteria. If it wishes, it may elect to adopt any combination of the new requirements.

The members discussed the matter and determined to wait until the latter part of the year to revisit the issue.
